---

Gary, I believe we are already doing a lot of this...

Donn,

Please see Cynthia's email below.

Cynthia,

I would suggest that Donn discuss the communications plan that's in place now.  
On the new topics, I would suggest development of a plan for elected briefings (scope/method/etc.); and  
Development of a plan for community outreach between now & the Proposed Plan this summer.

Thanks,

Gary Miller

I'd like to have an agenda. I'd like to start out with you talking about the communication needs you have (letters and briefings). The team can discuss how to work together to help the effort succeed. For example, I've invited David Reazin to talk about electronic means of briefing, such as webinars and Adobe Connect. He has helped train people on these methods and can give us advice on strengths/weaknesses.

Please call me.
